Work Experience

CertiCode

August 2026 - Present

Frontend Developer

- Contributed in a team as a frontend-end developer using React.JS, TypeScript, and tailwindCSS by completing assigned tasks on time.

Cooperative Development Authority

February - April 2026

IT Intern

- Developed a system for sorting raw data.
- Maintained agency's computer hardware and software.

Projects

Ecommerce Project

AI Driven Fullstack Developer

- Developed an ecommerce website using React.JS + TypeScript for frontend and an AI driven approach for backend using Express and MySQL for database.
- AI contributed by understanding the given planning and producing the required syntaxes for the backend.

Img2Pixel

Frontend Developer

- Developed a single page web-app that turns images into a pixelated-style output.
- Used HTML5, CSS3 for designing responsive UI and JavaScript for handling the logic of image conversion.

Chatbot

Frontend Developer

- Developed a React.js + JSX web-app chatbot.
- The chatbot can flip a coin, get today's date, or roll a dice.

MyPrompts

AI Driven Fullstack Developer

- Published a web-browser extension that acts as a notepad but for prompts.
- Used React.js for frontend and local storage for storing prompts.

The Grand Velora Hotel

Frontend Developer

- Developed user interface of a booking website for a hotel using React.js for frontend and tailwindCSS for mobile-first design.

Multimedia and Design

Graphic Designer (Figma and Canva)

2022 - Current

- Proficient in using Figma and Canva to create engaging and informative visual graphics for social media and wireframes.
